Her boutique, Elements Home Accessories and Gifts, carries an eclectic mix of handmade and one-of-a-kind items, ranging from jewelry to decorative home accent pieces. Her inventory includes elegant heirloom treasures and exclusive tableware designed by renowned artists and sculptors. Whether you're searching for a gift for a wedding or baby shower, or the finishing touch for your home makeover, chances are you'll find it here. Karol offers the following advice to shoppers:

- Trends come and go, but great style is always relevant and worth the investment.
- Beige is the new black in the color palette; neutrals are now taking center stage.
- Big bold jewelry is a hot fashion trend. One-of-a-kind pieces and those made by local artists are always popular.
- Luxury body and bath products continue to be a great choice for gifts.
- Popular accents include embellished candles, metal crowns and crosses.
